Forecast For Grampian
Issued by Met Office Aberdeen
at 0400 on Tuesday 23 Nov 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Mostly dry, but chance isolated showers in west. Occasional brightness.

Today:
Mostly dry with only a few light showers cropping up, mainly confined to Moray and western most areas of Aberdeenshire. Some limited brighter spells appearing, most readily in eastern Aberdeenshire. Westerly winds. Maximum temperature 10 deg C (50 deg F).

Tonight:
Majority staying dry and clear for the evening. Southwest winds strengthening overnight as band of showery rain spreads from the west, which clears to scattered showers in west come dawn. Minimum temperature 4 deg C (39 deg F).

Wednesday:
Showery rain initially in east. Otherwise brighter spells and showers. Outbreaks focused in west, before building across all from early evening, as winds veer more northerly and strengthen. Maximum temperature 8 deg C (46 deg F).

Outlook for Thursday to Saturday:
Wintry showers Thursday, mainly focused in north. Friday and Saturday turning very unsettled with gale, perhaps severe gale winds, and periods of rain, which turn wintry to quite low levels.
